2009

Bridgend

FOREWORD

The Annual Destinations Survey provides statistical information and analysis of the destinations of school leavers who were in Years 11, 12 and 13/14 during the academic year 2008-2009.

Today's young people are faced with an increasingly complex range of choices and decisions and for this reason high quality, impartial careers guidance has never been more important.

We hope this report will assist all those involved in the planning and delivery of education, training and employment opportunities, as well as informing future school leavers of the choices available to them.

INTRODUCTION

This report outlines the destinations of pupils from the **Bridgend County Borough** for the year 2009. It also includes some data from across the Careers Wales Mid Glamorgan & Powys area.

Careers Wales Mid Glamorgan and Powys covers a large and extremely diverse area. Where combined figures from the whole company area are of some value, we have provided comparative information which you should find useful.

In addition, you may wish to consult careerswales.com for similar reports from neighbouring Careers Wales companies.

Company Area

The Mid Glamorgan part of the company covers a significant area with Caerphilly in the east, Rhondda Cynon Taff wrapping around Cardiff and the Vale in the south and Bridgend in the west. The farthest point north is Merthyr Tydfil.

Much of Mid Glamorgan was traditionally made up of industrial, valley communities which have suffered from the decline in manufacturing and heavy industry over many years.

Powys, the largest county in Wales stretching from the borders of Wrexham and Gwynedd in the north to the Swansea Valley and Monmouthshire in the south, is a primarily rural area with all the associated benefits and difficulties.

We have analysed data on pupils who attended years 11, 12 and 13/14, including special schools. The data does not, however,

include those attending college or independent schools.

It is based on a snap shot of the pupils' destinations on October 31st 2009.

The survey is conducted by all Careers Wales companies on behalf of the Welsh Assembly Government.

Destination information is collected through a variety of methods. Many young people register at their local careers centres but we also follow up significant numbers by phone, email and letters. In addition, information is provided by our partners in schools, colleges and learning providers as well as other agencies dealing with young people and their families.

We are grateful to all those who have assisted in the gathering of this information.

Headings used in the following pages are largely self-explanatory though the definitions at the end of the report may assist:

Figures may not always total exactly 100% due to rounding up/down.

Year 11 Bridgend Pupil Destinations 2009

- 1633 in the cohort
- There has been a decrease of 6.6% in the population of Year 11 since last year.
- The cohort is made up of 51% males and 49% females. In 2008, the percentages were 53% and 47% respectively.

Education

- The majority of school leavers – 81.7% – remained in full time education. This shows a significant increase. Last year's figure was 80%. (See also **5 Year Trends**).
- In spite of the decreasing number of females in the cohort, they still represent a higher percentage of those continuing in education than males. 86.4% of girls continued, compared to 79.1% of boys.
- Overall, of those who continued in full-time education, 72.4% continued in school with 27.6% attending college courses. The percentage going to college has fallen from 30.3% in 2008.

Year 11 Bridgend Pupil Destinations 2009

Work and Training

- 3.2% of the cohort entered non-employed WBT, down from 3.6% last year.
- Only 0.6% (9 pupils) entered WBT with employed status (including Modern Apprenticeships), down from 1.4% (25 pupils) last year.
- There was a 50% decrease in the numbers entering employment from 53 in 2008 to 26 in 2009. (See also **5 Year Trends**)
- Boys made up a significant majority of those entering WBT and employment, representing 62.5% of the total, virtually unchanged from last year's 62.4%
- At the time of the survey, 7.6% were not in education, employment or training (NEET), a decrease from last year's figure of 8%.
- Overall 2.3% did not respond to the survey, a slight deterioration from 2008 increasing the figure from 33 to 37.

Ethnicity (All Company Data)

- Figures for Year 11 clients selecting an ethnic group show: 78.3% (81.3% in 2008) consider themselves White British, White Irish or White Other; 20.7% (17.9% in 2008) selected no ethnic group, and 1% (0.8% in 2008) selected other minority ethnic groups.

5 YEAR TRENDS

- The total Year 11 cohort is 1633, a drop of 9.6% since 2005.
- The percentage of young people staying in education has increased gradually from 75.8% in 2004 to 82.7% this year.

2005	2006	2007	2008	2009
75.8%	77.3%	76.0%	79.9%	82.7%

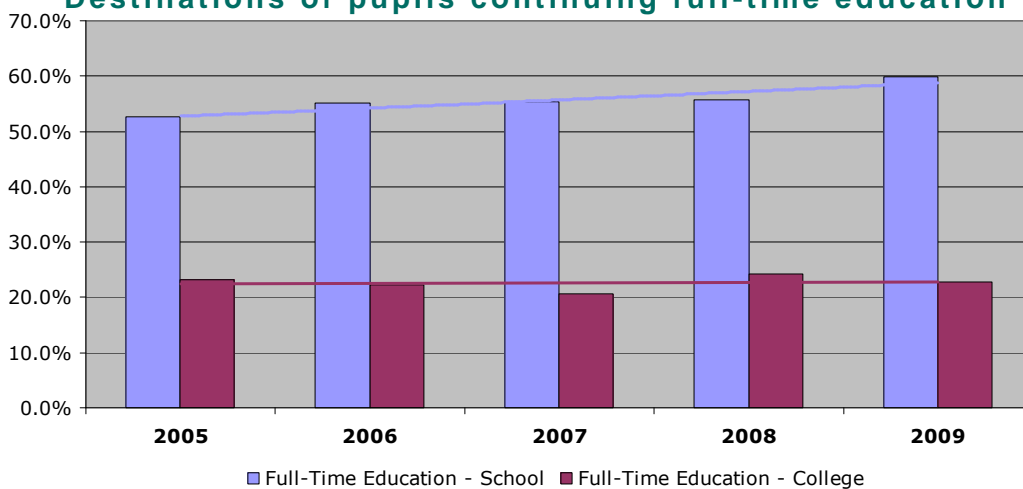

- The Education Maintenance Allowance was introduced in 2004/2005 and may have influenced staying-on rates over the last few years.

- Following a peak in 2007 of 118, the number entering WBT has fallen by 47% to 62.
- The number entering employment has steadily decreased from 147 in 2005 to this year's figure of 26, only 17.7% of the 2005 figure.
- Girls have consistently represented the greatest percentage of those continuing in full time education and conversely boys have continued to be much more likely to enter work or training.

Destinations of pupils continuing full-time education

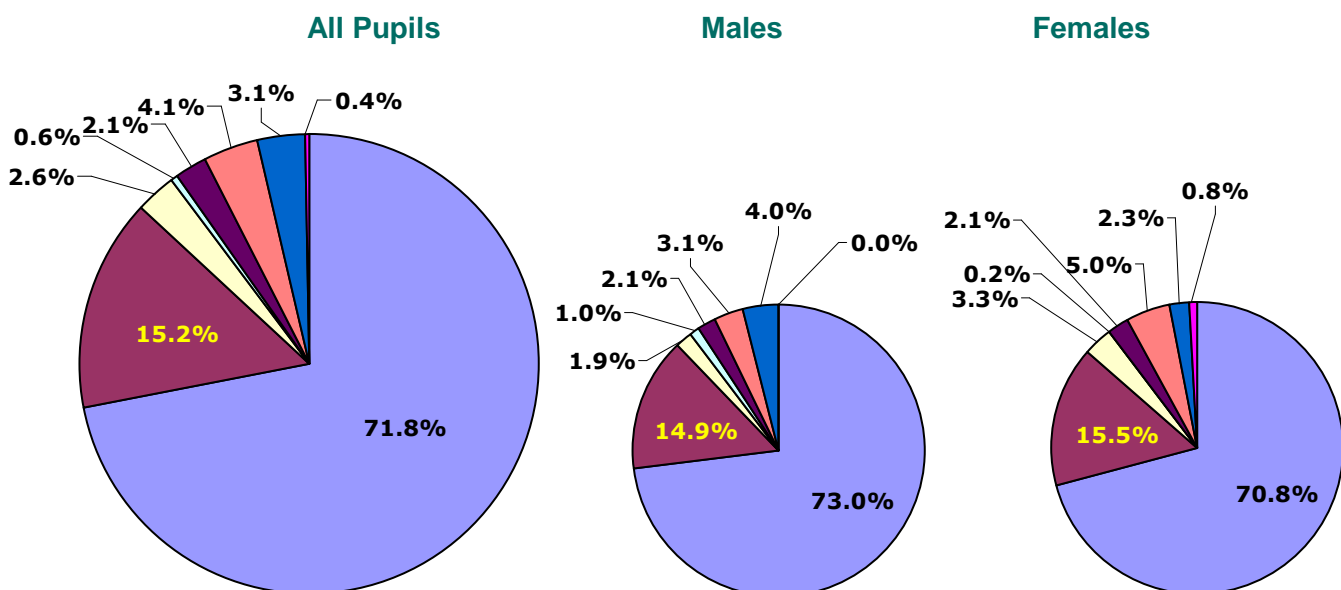

Year 12 Bridgend Pupil Destinations 2009

- 998 in the cohort
- The majority - 87% of pupils - continued in full-time education following Year 12. Of those that continued, 52% were female and 48% male.
- The figures make it clear that most pupils who continue in full-time education beyond Year 11 will continue for at least two years.
- 15.2% left school after Year 12 to continue their education in college. This may reflect to some extent the nature of Year 12 course studied.
- Again there was a slightly higher percentage of Year 12 leavers entering employment outside WBT than Year 11 – 2.1% compared to 1.4% but the gap is narrowing
- Of the remainder, 3.2% entered WBT, 4.1% were known not to be in employment, training or education (NEET) and a further 3.5% had not responded to the survey or had left the area.

Year 13/14 Bridgend Pupil Destinations 2009

- 787 in the cohort
- 77.9% of these students continued in some form of full-time education.
- 67.3% of the female cohort progressed to Higher Education compared to **only** 54% of the male cohort. (See Page 10 for some comparative tables)
- Of those attending higher education, 56% were female and 44% male.
- 17.2% of the total cohort continued in school or college education.
- 9.1% of the group entered the labour market, the overwhelming majority entering employment rather than training.
- Of the remainder, 5.6% were known not to be in education, work or training and 7.4% did not respond at the time of the survey or are known to have left the area.

All Company Data Destinations 2009

Employment

- Only 3.03% of young people surveyed **across the unitary authorities covered by the company** entered employment. This compares with 4.74% in 2008. In all, over 300 fewer school leavers went into employment this year than did in 2008.
- Boys are more likely to enter the labour market between 16 and 18 than girls although the gap is narrower than in 2008. In 2009, 3.69% of boys and 2.41% of girls entered employment whereas the figures in 2008 were 6.01% and 3.60% respectively.
- Boys made up 61% of the total employed. It is worth noting, however, that **76%** of labour market entrants, immediately after Year 11, were boys.

Progression into Higher Education

The following table shows the 2009 Year 13/14 pupils who progressed to Higher Education through school as a percentage of the **2007 Year 11** cohort. While this table does not include all those entering HE (college/mature entrants are not included), it does show some significant differences between progression rates from different unitary authorities.

	HE including Gap Year		
	Male	Female	Total
Bridgend	22.8%	30.2%	26.4%
Caerphilly West	17.7%	25.7%	21.5%
Merthyr	17.6%	28.7%	23.0%
Powys	26.3%	33.7%	29.9%
RCT	21.7%	31.3%	26.6%
Company	21.8%	30.5%	26.1%

- The differentiated experience between male and females is marked.
- Girls have consistently outnumbered boys in those who continue in education. They now represent significantly higher percentages of HE entrants than boys.
- On average the percentage of girls entering HE is nearly 9% more than boys.
